The DIMMER VIEW

by Max Goodwin

Canadian Railway Bugs Couple

One of the major tenets of Rotary clubs asks this question: Is it the truth?

That should account for the believabiliy of a report given by a member recently at the regular weekly meeting of the Spring Valley Rotary club.

The member, with his wife, had just returned from a Canadian vacation. The couple had driven through Washington, put their car in a garage and took a Canadian train on a two day-one night trip through "Scenic British Columbia."

The trip was all it was advertised to be. The sights were a joy to behold. On the second day the couple discovered they had been attacked by a host of venomous bed-bugs during the night. The porter suggested that a complaint be made to the railway's president and provided his name and address.

When they returned home the husband addressed a letter to the president.

Soon his contrite reply came. It was sincerely apologetic and contained assurances that he would give his personal attention to the situation with a promise that never again would any passenger suffer the night indignities such as reported by the Spring Valley couple.

With such assurance from the top executive, the rancor evaporated from the Spring Valley couple. Then he noted an additional scrap of paper in the envelope. It was a note from the president to his secretary that got into the envelope by mistake.

It read, "Margie: (probably his secretary) Send this guy one of our 'bug' letters."

Parking Fund Starts Route

There was a lot of the good, old-fashioned show-me in a recent action by students at Grossmont college who needed public transportation.

Instead of crying on government's shoulder for welfare-type aid, students took a little different tack. They showed government how it could be done outside the smothering influence of governmental paternalism.

According to Dean John A. Burdick, at Grossmont, students decided to put up $2,500 from their $3 a semester parking fee fund to hire a bus to run through Spring Valley, Lemon Grove and La Mesa to Grossmont College and return. The San Diego Transit system had turned down a request for the route on the basis that the passenger load would be too small.

The Grossmont College board of directors added $18,000 to the fund when the route was established. A fare of 10 cents was used to attract attention but soon the passenger load was topping 300 a day and growing. Many of the passengers were non-students who wanted to go from one side of the district to the other to shop or visit. The fare was raised to 35 cents and riders continued to increase.

This acceptance encouraged San Diego Transit to take over the route, which they will do in mid-December.

At that time SD Transit route 54 will inaugurate a north-south route between Grossmont and S. Spring Valley with stops at shopping centers enroute. It will follow the route established by the student fund. There will be transfer privileges to all SDT routes, too. Exact route and schedules are being prepared now. Indication is that it will be an hourly schedule.

All SDT needed was a little leadership. Once finding a course many entities — and individuals — can find a proper way.

That maxim also holds for such diverse problems as the financial plight of New York City to the unmarried lady with four children on welfare.

Communists Eye Azores

The U.S. Press Assn. urges that we watch the possible Communist developments in the Atlantic off the coast of Portugal.

The concern specifically is the Azores, nine islands ranging out into the Atlantic that are as far as 1500 miles from the mother country — Portugal.

The current population of the Azores is about 250,000. But three times as many Azoreans — more than 750,000 live in the United States, mostly in New England and California, where there are large Portuguese communities. As a result, the Azoreans have a strong affinity for the U.S. and almost none at all for the leftists revolution that threatens to turn mainland Portugal into a Communist dictatorship.

Farmers are the backbone of the Azorean economy, and since the new mainland government took over, the farmers have been paid less and less for their crops, have been taxed more and more, and have found their livelihood to be subject to rigid controls.

During repeated demonstrations they have vented their wrath on various Communist officials and have declared their desire for an independent Azores. It is obvious that they want and expect the U.S. to help them get it.

The U.S. has a strong interest in this movement toward independence. Our important Lajes airbase, for example, is located on the island of Terceira. Here are found the strategic refueling facilities which were so vital in the resupply of Israel during the 1973 October War.

Here also are located facilities used for tracking Soviet submarines in the Atlantic. Lajes airbase is, by any standards, extremely important to the security of the United States.

If the Communist bid for power in Portugal is defeated, Azoreans may become less eager for independence and the issue may become moot.

But if, as seems more likely, events develop in such a way that Azoreans wish to sever their ties completely with Lisbon, then we hope the U.S. will not hesitate to support them.

This is one place where we can and should bring our influence to bear.

The possible establishment of Soviet naval and air bases on these strategic islands should be incentive enough.

Halloween Activity Aplenty

Goblins, Ghouls Have Much Planned for Friday in Area

Neighborhoods in the Lemon Grove-Spring Valley area are buzzing with activity in preparation for a variety of festive events marking Halloween. Parades, carnivals and dances have been scheduled to offer alternatives to the usual trick-or-treaters who will be cut on the streets either for their own supply of goodies or to benefit the annual UNICEF drive.

No fewer than ten carnivals are planned for tomorrow night at various schools.

The Associated Student Body at Mt. Miguel will sponsor its fourth annual "Spook House" fund raiser at the home of Mr. and Mrs. David Marmolejo. Last year's haunting at the Marmolejo home brought over 250 visitors to the house which features a good scare, Halloween goodies and refreshments and Mexican food donated by the Marmolejos. Proceeds from the event this year will be turned over to the Mt. Miguel Community Aquatic Center, the swimming pool drive for Mt. Miguel High.

A few miles east, Monte Vista High is directing its autumn energies into its annual Homecoming, November 13 and 14. The activity includes a parade down Campo rd. in Casa de Oro on the 13th, beginning at 4 p.m., followed by the football game against Granite Hills on Friday evening, where the homecoming queen will be named.

Pumpkin Carols

EPIC, the Effective Problem Intervention Center, with new facilities at 3319 Buena Vista ave., Lemon Grove, will go "pumpkin carolling" on Halloween night. Between 6:30 and 9 p.m. staff volunteers and friends will walk through the neighborhoods in Lemon Grove and Spring Valley to sing "pumpkin carols" and collect canned food for distribution to destitute families during the approaching holiday season.

RELUCTANT SHOPPER — Little Shawn Kramer was not too interested in father Jack's hunt for a Halloween pumpkin at Murphy's Wagon Wheel this week. Many others were, however, according to shop owner Gloria Murphy who reported that thousands of the prospective jack-o-lanterns, piled outside her Sweetwater rd. market, were sold in a week. Wagon Wheel opened 2½ months ago.

Two Fire Bomb Attempts Here

Attempted arson without cause is suspected as the second fire bomb was thrown against a building on London lane in Lemon Grove.

The first was thrown on the driveway of the apartment and reportedly did no damage.

The second one, two days later, on October 24, was thrown through the window of an apartment occupied by Janet L. Smith and her blind mother. The missile lodged between the drapes and a sofa but did not burn.

Firemen responded to call and turned off the gas pilot to the water heater. Sheriff's deputies obtained fingerprints from the bottle.

Victims could offer no reason for the bombing.

LAFCO's Reorganization Plan

La Mesa Annex of VLM Hearing Set For Tuesday

A public hearing, scheduled by LAFCO (Local Agency Formation Commission) following which the City of La Mesa may annex certain "islands" of unincorporated areas, will have an affect on the future of Lemon Grove.

The hearing concerns Vista La Mesa residents, among others. Vista La Mesa is adjacent to Lemon Grove to the north with freeway 94 in between. It is in the Lemon Grove Fire, School and Sanitation Districts and a recent poll taken by the Lemon Grove Incorporation Committee showed a strong (approx. 80 per cent) preference of the inhabitants of the south part of the area to be identified with Lemon Grove.

Open to Public

The LAFCO hearing is scheduled for November 3 at 9 a.m. in room 358, County Administration Center, 1600 Pacific Highway, San Diego. The meeting is open to the public.

The hearing is designated the "La Mesa Reorganization" and was probably set ahead of Lemon Grove's December 15th Reorganization hearing so as to clear the air of claims La Mesa has felt it has on the VLM area, and for the need of more population to qualify for more state funds.

Regardless of the growing opposition in the south VLM area to being annexed to La Mesa, it may take place anyhow since it is but a small part of an 11-plus square mile annexation proposal. Several groups have formed to oppose the annexation. One is headed by John Annis, a retired CHP officer who lives on Waite dr., in the affected area.

Stay As It Is

Gone forever is the will to "stay as it is." The Board of Supervisors has ordained that unincorporated islands in the county will no longer be permitted. La Mesa and Lemon Grove Reorganizations are results of that plan.

The reorganization hearing on Lemon Grove is December 15 at which time LAFCO will tell the future city where its boundaries will be. If a June election is successful, Lemon Grove will become a city on July 4 — a Bi-centennial City, so to speak.

The L.G. Island

If it fails, there is a danger that La Mesa could annex a narrow strip down Sweetwater road to meet with one San Diego could annex from the other direction. Lemon Grove would thus become an "island" and it would be forced to annex to one of the

Seven Candidates for Three Seats on S.V. Fire Board

The election will be held Tuesday, 7 a.m. to 8 p.m.

Ron Schafer, 24, a real estate investor-builder, is one of seven candidates for three seats on the Spring Valley Fire Protection District.

Schafer, who lives at 9915 Tangor way, in Spring Valley, was born in Spring Valley and attended elementary schools there; went from Monte Vista High school to Grossmont College and lacks three units of obtaining his degree in Business Administration (real estate) at S.D. State.

He said this week that he sees three areas where issues exist and where his abilities could be utilized: the paramedics issue, which needs more study by the board; the Jamul and Steele Valley Canyon annexations which will be forced into issue when State Forestry ends fire protection service next year, and the strike possibility for which San Francisco firemen set a pattern.

Native Born

"As a native of Spring Valley I have a greater compulsion to contribute to the betterment of my community. As a local businessman and a taxpayer I know the need for fire protection that will not only protect our residents but will provide adequate protection without tax costs frills.

"I am a good listener who accepts suggestions with enthusiasm. The same enthusiasm will be in evidence in my contacts with fire personnel.

RON SCHAFFER

"Residents will be able to reach me 24 hours a day through my answering service. When I am elected I shall enter the office with an open mind and an attentive ear."

Others seeking office include Stan Totten, Virgil Steffen and Dick Allen, incumbents; and Daniel G. Marshall, S. Lance Fillet and Clyde G. Noble.

Firm Offers to Fix, Fill Potholes Free

There was some good news at the regular monthly meeting of the board of directors of the Lemon Grove Chamber of Commerce.

First, members are putting together a program to encourage local business firms to offer a standard ten per cent discount to all senior citizens. Names of participating firms will be announced when the program is completed.

Secondly, the board learning that eight property owners had rejected the County's parking area upkeep program which meant each owner would have to fill the potholes, heard an offer from Arrow Electric by which the holes would be filled without charge as left-over loads of hot-mix.

Work Party, Too

This newspaper contacted Steve Sarff, general manager of Arrow, at 3559 Sweetwater way Tuesday. He said that get-

NEIGHBORHOOD PROCESSION — Newlyweds Sgt. and Mrs. Dale C. Kephart begin the 50-member procession from the bride's home to the bridegroom's nearby residence in the Monterey Heights area following a Saturday ceremony. The wedding was held at the bride's home and the reception at the Kephart residence.

Two Families Merge in Monterey Heights Wedding

A unique merger was affected in the Monterey Heights area of Lemon Grove Saturday afternoon, and much of the neighborhood was a part of it all.

Sandra Irene Spisak, daughter of the Rev. and Mrs. Charles B. Spisak, 1680 Taft st., was married to USAF Staff Sgt. Dale C. Kephart II, son of Mr. and Mrs. Dale C. Kephart of 7616 Lansing dr. The marriage symbolized the merger of two long-time Lemon Grove families, both with active interests in music.

"All in the Family" would be one way to describe the ceremony as several members of the Spisak family took part.

The bridegroom's father conducted the ceremony at the Spisak residence. The service was written by Mrs. Spisak.

During the ceremony, the couple held hands as their prerecorded vows, written in their own words, were played.

The merger of the two families was symbolized by a three-block-long procession of fifty friends and relatives each of whom was presented a "parchment of gratitude," by the couple before walking together up Taft st., east on Canton dr. to the Kephart residence on Lansing dr.

Other family members played parts in the wedding ceremony. The bride's sisters, Paula Maslow and Melissa Spisak provided the docorations and presided at the wedding guest book.

Sgt. David Spisak, San Diego Police Department sergeant and brother of the bride, ushered and was in charge of "traffic control" during the procession.

Dale and Sandra grew up together in the Monterey Heights area. They both graduated from Monterey Heights Elementary, Palm Jr. High and Mt. Miguel High.

The bridegroom was a saxaphonist with four years of active duty on the Mt. Miguel Band. The bride was a member of the Red Robe Concert Choir and Girls' Ensemble during high school.

The couple were both charter members of the original Chapel Choir under the direction of the Rev. Derric Johnson of Skyline Wesleyan Church.

Both families share a long history of community activity including PTA, scouting and Skyline Church activity. They have lived in the Monterey Heights area over 25 years.

The Casa de Oro church's previous pastor, Ervin Estruth, left in January to accept a call to minister at a church in Kent, Washington.

Various clergymen have filled in at the pulpit since then, including student pastor Jay McCarrell who conducted services from June through September.

SAVES A BUNDLE — Churchgoers' labor saved Fairhavens Baptist Church several thousands of dollars in construction costs of its new sanctuary at 9255 Lamar st.

Parish-Built Sanctuary Opens in Spring Valley

The new sanctuary for Fairhavens Baptist Church was put to use for the first time Sunday at its new Spring Valley site, 9255 Lamar st. Having passed final building inspection Thursday, the church was inaugurated unofficially with the first Sunday worship service led by Pastor Emory Langrell.

A dedication banquet and dedication service is planned for late November on the new 3-acre site. The banquet will be held at 6:30 p.m. November 21, with the dedication day set for the following Sunday, the 23rd, at 2 p.m.

Parishioners of the church performed most of the structural work themselves, saving over $150,000 in building costs. Donations and loans to build the 10,000 sq. ft. structure total $61,000, according to Pastor Langrell. A conservative estimate on the value of the building and property is $225,000, he said.

The pastor said that most of the construction, including the grading, electrical and some of the plumbing, was donated by church members.

The new sanctuary has a capacity of 300 and replaces the 2115 Imperial ave., Lemon Grove site which could seat only 130.

Pastor Langrell is optimistic that the new facilities will mean growth for the church which has already planned two education buildings and another sanctuary with a seating capacity of 700. These projects, recently approved by the County, will be constructed in the 3-acre property but are only tentative at this time, said Langrell. Plans include the establishment of a day school. Gwen Langrell, the pastor's wife, is a licensed preschool teacher.

Chinese Thanksgiving

In early China, people gave thanks in the fall of the year for a bountiful harvest, just as the Pilgrims did in America.

This Week's RECIPE

Quiche Moselle—Easier than Scrambled Eggs

For homemakers who think quiches are difficult to prepare, we've got news for you: quiches are almost as simple to make as scrambled eggs. But they always seem to taste better, and they're certainly much more elegant.

Quiche is a flavored custard baked in a pastry shell. Quiche Moselle, the custard goes continental with the addition of Swiss and Cheddar cheeses, smoked summer sausage and dry white wine.

The thinly sliced summer sausage and shredded cheese are sprinkled into the pastry shell (buy one already prepared —it's easier). The other ingredients are combined, poured into the shell and baked until the custard is set — that's all there is to it.

The fluffy tart can be served hot from the oven as the entree of a light dinner or as a tempting appetizer to a larger meal. It also can be served cold for the same purposes or as a picnic treat.

Here it's served with French-style green beans almondine and a salad of tossed greens and tomatoes vinaigrette. A glass of dry white wine is the perfect compliment.

QUICHE MOSELLE
6 servings

- **1 pastry shell (9-inch)**
- **1 cup thinly sliced natural casing sausage (2-inch diameter) cut in half**
- **1 cup (4 oz.) shredded Swiss cheese**
- **1 cup (4 oz.) shredded Cheddar cheese**
- **1 cup sliced mushrooms**
- **¼ cup chopped onion**
- **2 tbsp. butter**
- **1 tbsp. flour**
- **3 eggs, beaten**
- **1¼ cups half and half**
- **¼ cup Moselle wine**

Bake pastry shell* in preheated 450° oven six minutes or until lightly browned. Cool. Reduce oven temperature to 325°. Scatter sausage over bottom of shell; sprinkle with cheeses. Saute mushrooms and onions in butter until soft; remove from heat and stir in flour. Blend together eggs, half and half and wine; add to mushroom mixture. Pour over sausage and cheeses. Bake at 325° for 40 to 45 minutes, or until set in center. Cool 10 to 15 minutes before cutting.

*To keep bottom and side of shell from puffing, fill with dried beans or line with buttered foil and fill with rice. Discard filler after browning.

'Hot L Baltimore' to Open 5 Wk. Run Tues.

"The Hot L Baltimore" will open a five-week run on Tuesday at the Carter Centre Stage in Balboa Park.

A soon to be demolished, run-down, seedy hotel is the subject of the play. Residents and staff of the establishment are absorbed into the small world, which is about to collapse. The characters are funny, bawdy, compassionate and sometimes cruel. The play was the winner of the 1973 New York Drama Critics Circle Award.

Performances are scheduled nightly except Monday at 8 p.m. and matinees on Sunday at 2 p.m. through December 7. Due to successful subscription sales this year, limited seating is available. Theatre-goers are advised to make reservations early.

Inflation hasn't changed the price of ashes.

But it has changed the price of your home. For example, if you bought a $20,000 home in 1968—today it's worth about $27,000. Don't be left with a costly pile of ashes. See me about a State Farm Homeowners Policy that will cover your home for all it's worth . . . and keep it that way with automatic Inflation Coverage.

Never-on-Sunday Chargers To Try it On Saturday

Unsuccessful on Sundays, the San Diego Chargers try Saturday football this week.

The Chargers (0-6) engage the New York Giants (2-4) at Shea Stadium Saturday at 10 a.m. (PST). The game was scheduled for Saturday because the New York Jets are at home at Shea on Sunday.

Last Sunday the Chargers lost to the Cakland Raiders 25-0, at the Oakland Coliseum. The Giants played two games last week. They upset the Buffalo Bills, 17-14, on Monday night and lost to the St. Louis Cardinals, 20-13, on Saturday.

San Diego's six-game losing streak ties its previous longest in 1962. The Chargers went seven games without a win in 1973, but that skid included a tie.

There will be no television because of conflict with college football games in San Diego. Andy Musser and Dick Van Raaphorst will air the game over KSDO.

The Giants won the only NFL game between the teams, 35-17, at Yonkee Stadium in 1971. In a preseason game this year, the Giants beat the Chargers, 17-7, in San Diego.

M&Ms

In the city which once featured Mantle and Maris, the 1975 New York football Giants have their own star M&M combination in quarterback Craig Morton and defensive tackle John Mendenhall.

Morton, the 11-year veteran from California by way of the Dallas Cowboys, is one of pro football's finest passers. This year he has thrown for 1,063 yards and five touchdowns.

Mendenhall is a 6-1, 255-pound tank from Grambling, who had 11 sacks in 1974. The four-year veteran sparks a tough defensive unit which limited Dallas to 13 points and Buffalo to 14.

In addition to Buffalo, Coach Bill Arnsparger's club has defeated the Phily Eagles 23-14.

Coach's View

"We didn't do much of anything well," said Coach Tommy Prothro after the Chargers suffered their second shutout at the hands of Oakland, 25-0.

With No. 1 quarterback Dan Fouts sidelined because of a sprained ankle, Jesse Freitas started and Bobby Douglass played most of the way in his San Diego debut. Freitas had 2-of-6 completions for 9 yards, Douglass 6-of-22 for 49.

Glen Bonner rushed for 47 yards and a 4.3 average, Douglass 42 yards and 4.2. Tight end Pat Curran was the top receiver with four catches for 49 yards.

Starting defensive tackle John Teerlinck suffered a knee injury against Oakland, underwent surgery and is out for the season. Two weeks ago, the Chargers lost star running back Don Woods to knee surgery.

How did Bobby Douglass assess his debut as a Charger quarterback against Oakland?

"I can't make an evaluation, but I felt some things went all right. The timing here really still is a problem to me. The passes go on a quicker rhythm than I am used to. But I think I can move this club."

Charger offensive coordinator John David Crow, a Heisman Trophy winner at Texas A&M and star pro with the Cardinals and 49ers, was name to the State of Texas All-Time Professional team picked by Texas sports writers. Crow and Doak Walker were running backs with Sammy Baugh at quarterback and Raymond Berry and Kyle Rote the receivers.

The Chargers return home to face the New England Patriots at San Diego Stadium on Sunday, Nov. 9, at 1 p.m.

Mats Sag 43-20 To E.C. Braves

By Steve De Nunzio

Will the real Mt. Miguel Matador football team please step forward?

On Friday night it appeared that Mt. Miguel sent two different football squads to El Cajon Valley Stadium, in a game that the Matadors lost to the El Cajon Valley Braves, 43-20.

Mt. Miguel was disappointed to discover that football is a four-quarter game instead of one.

In the opening quarter the Mats played brilliantly as Ed Moore scored two quick touchdowns to give Mt. Miguel a 14-0 lead.

Usually when a quarter ends football teams change sides, but in the second quarter it looked as if Mt. Miguel also changed from a team that had done so well in the first quarter suddenly fell apart, while the Braves caught fire and scored 29 points before the half.

In the second half things were under better control, as Mt. Miguel was only outscored 14-6.

Doing the most damage to the Matador cause was El Cajon quarterback Mark Malone. Malone, considered one of the top college prospects, threw a pair of touchdown passes. He also ran across the goal line twice.

This Friday Mt. Miguel tackles the Monte Vista Monarchs at Monte Vista. Both teams have 3-2 marks in league play. Kickoff is at eight.

Mt. Miguel	14	0	0	6	—20
El Cajon	0	29	7	7	—43

S.V. Man in S.B. Stock Race

Three-time champion Pat McIntyre, Tim Biggers, John and Ralph Dineen yesterday filed entries for South Bay Park Speedway's 100-lap Western invitational super stock car race slated for the clay half-mile oval Saturday night.

This will be the final appearance this season for the popular super stocks and for many, it will mark their initial dirt track showing. Qualifications are scheduled for 6:30.

McIntyre wrapped up his third El Cajon Stock Car Racing Assn. title on October 4 and capped this by claiming a 100-lap invitational at Cajon Speedway two weks ago. In all, McIntyre, who won titles in 1972 and '73, won eight mains at Cajon and three earlier in the season at South Bay when he beat some of the best from the National Assn. of Stock Car Auto Racing (NASCAR) ranks.

The Spring Valley building contractor is comfortable either on asphalt or a clay surface, such as South Bay's. This year he has finished in the top five in 18 of 25 main events he entered.

Charger is Loser

Ronald Smith Billingsley, a Charger-turned-plumber, was loser by $400 Thursday when a thief took the tool box off his truck during the night hours.

Billingsley was defensive tackle for the Chargers in 1967-1970, is now associated with Russell's Plumbing at 7920 Brodway in Lemon Grove.

Billingsley told sheriff's deputies that all of the tools of his trade were in the 18x10x12 tool box.

The rest of the roster will comprise a collection of highly competitive, top stars from the U.S. and Canada.

Howe and Houston Meet Mariners at Arena Tonite

With the display of three offensive lines to offer more scoring power, the San Diego Mariners get set to host defending AVCO Cup champion Houston tonight.

The WHA contest matching two Western Division rivals begins at 7:30 p.m.

Houston is led by hockey immortal Gordie Howe, its 47-year-old winger who is also the Aeros' president and whose sons, Mark and Marty, also play with the WHA entrant.

The Texas icers have captured the league title two straight years and boast outstanding goaler Ron Grahame, a tough defense and the WHA's third highest scoring line of a year ago, center Andre Hinse and Frank Hughes.

San Diego has reeled off three wins and a tie after a pair of season-opening losses and general manager-coach Ron Ingram looks to the emergence of the three lines as one of the keys for the team's success.

"It forces other teams to think more about how to stop us," Ingram commented. "It's really a plus for us, something we didn't have last year."

Peacosh has 8

The trio of center Ray Adduono and wingers Norm Ferguson and Gene Peacosh has accounted for 28 of the Mariners' 60 points. Peacosh has scored eight goals and has at least one in every game.

Winger Wayne Rivers is still slowed by a pre-season back injury but is getting stronger with each outing and his line mates, all-time WHA scoring leader Andre Lacroix at center and recently acquired winger John French, have both been more productive as they learn each other's moves.

A third grouping of center Joe Noris and wingers Alec Tidey and Kevin Devine averages 21 years of age and is one of the team's most aggressive lines.

In goal, Ernie Wakely has started every game and has a 2.60 goals against average to rank among the league's top three netminders.

Defensively, the Mariners are going with twosomes of Kevin Morrison and Mike McMahon, Bob Wall and Bob Falkenberg and Brent Hughes and Jim Hargreaves. This pattern may be broken as Hargreaves suffered a charley horse in the last game and may be sidelined.

Exercise Improves Tennis, Says Athlete

Strenuous warmup exercises will prove your tennis game says a professional track star.

Speaking at the U. S. Tennis Academy's quarterly session for instructor at Vic Braden Tennis College, at Coto de Caza in Orange County, Hines recommended 20-60 minutes of stretching, muscle loosening, isometric exercises and warm-up drills.

Hines shared guest speaker honors with World Team Tennis president Larry King at the Academy presided over by Braden and his staff. Another five-day session has been announced for Dec. 27-31 here.

TAKE FIVE

By John E. Wirges

In that game of life between men and females of the opposite sex, us guys are getting a put down today. The gals have gone on strike. Gals ain't gonna do none of the things today that females are supposed to do. They're gonna walk off the job, in house and out.

Ho-hum. If that means that the house won't get cleaned, the beds will stay unmade, the laundry won't get done and dinner will come out of a can, what else is new?

Womenfolk going on strike, yuk. If it wasn't so pathetic, it would be downright funny. However, the very attempt proves, once again, that females don't know anything about sportsmanship. With them it's all take, no give.

You can just imagine how the whole mess was dreamed up by a bunch of dissatisfied housewives who apparently got tired of, or perhaps inspired by, television soap operas and decided to band up and blackmail mankind.

Anyway, a group calling themselves the "National Organization of Women" (NOW) evolved from all this self-generated discontention and it is that bunch of broads sponsoring today's put down.

Oh, pain. Oh, hurt. After years of full support and uncommon fondness, it grieves man and boy to see womenfolk acting as if touched by a full moon.

It makes one wonder if female strike day, named "Alice Doesn't" by NOW, probably for all the housewives who don't, isn't really part of Halloween.

Both are rather grotesque, offer a chance for a good laugh, are mostly unrelated to either truth or fact and are kind of childish in concept.

The object of all this mass of female protest is the system under which we live. NOW, as spokesman for troubled gals everywhere ,says the "system" continually ignores, oppresses, rapes, brutalizes, imprisons, confines and restricts . . . women. And on any given day, it certainly does.

But women, being the sweet, vain, narrow-minded, self-centered, pampered, happily over indulged sweety pies they are, fail to see or recognize the "system" does the same things to men. Us guys are victims, too.

Listen up, ladies. That "system" is called life. Out here in the real world, you gotta fight it every day. Talent ain't enough. You gotta have some, but it helps a big bunch if you also got clout, drag, kin or contacts.

Success come to those who work like hell, using mornings to do their job and afternoons to secure their power base. Just ask around.

And striking ain't a good way to get your say. First off, what happens if no one notices? And secondly, NOW ain't even being realistic.

One of the ways NOW suggests gals show their dissatisfaction today is for them NOT to spend any money. How absurd.

Can't you just see a bunch of gals taking a day off and NOT going shoppin? Why, such a suggestion violates the "cruel and unusual" provisions of the Constitution.

Another thing the gals ain't supposed to do today is babysit. NOW says Daddy should do the sitting today, even if he has to take junior to work.

Wonder how Tommy Prothro will react if half of his behemoths show up for today's workouts with kids in tow?

"Sorry Coach. I'd sure like to get in there and learn those new plays, but I gotta quit now and change the baby."

And what about Bill Musselman's Sails, trying to dribble up the court with one hand while holding their offspring in the other.

"The ABA is a young league," Musselman concedes, "but not that young."

Hockey players need both hands, so they'll likely have to hitch their kids up piggyback in Indian fashion. Can't you hear them? "Watch that body checking from the rear, you turkey. You're hitting my kid."

The whole strike idea is impractical. The gals don't know what they're doing. What they ought to do is hire a man to show NOW how.

But let's face it, guys. There is room for improvement. We ought to give the gals more consideration. So the next time dinner is on the table on time, or the laundry gets done before you run out of shorts, tell 'em, "thanks." Give 'em a friendly pat. You'd do as much for your dog.

After all, women are people, too. Why, some of 'em got a mind as sharp as a man's. Honest to Pete.

American Soccer Team Seeks Name

San Diego soccer fans are being given a chance to pick the team name for the new American Soccer League professional franchise here.

Club co-owners Bill East and Jim McEvoy said that San Diego fans should have a voice, right from the start, in the team which will represent them in the ASL.

Starting immediately, suggested names will be accepted, with a mailing deadline of Saturday, November 1. The winning name will be announced on Tuesday, November 4. The first 1000 entries will receive two youth tickets to the season opener in April.

The winner will receive two adult season tickets. Duplicate entries will be decided by the earliest postmark.

Entries should be sent to San Diego Soccer, Inc., 3739 Adams Ave., San Diego, CA 92116.

The Friendship Center, operated by Mental Health Association, is open 6 days a week and offers a variety of classes.

SDSU to Host Tourney For Ranking Hoop Teams

San Diego State and the S.D. Junior Chamber of Commerce will showcase a holiday basketball tournament in 1976.

The tournament will be spcnsored by the Junior Chamber and hosted by San Diego State. It's named the San Diego State Holiday Basketball Tournament with the first tourney scheduled for December 28 and 29, 1976 in the 15,000 seat San Diego Sports Arena.

Four teams will play doubleheaders on two nights with the winners of the first night's games meeting for the championship on the second night.

Next year's inaugural tournament will feature the Aztecs, Texas (El Paso), La Salle and East Carolina.

Ranking Competitors

Last season East Carolina finished second in the Southern Conference and played in the post-season Commissioners Tournament, El Paso finished second in the Western Athletic Conference and earned an at-large bid to the NCAA Playofffs, and La Salle went to the NCAA Playoffs representing the East Coast Athletic Conference. East Carolina was 19-9 last season, La Salle was 22-7 and El Paso was 20-6.

In future years teams scheduled to appear in the tournament are Indiana, Purdue, Pennsylvania, Pittsburgh, Tennessee, Arizona State and Iowa.

Good Teams Booked

"We're delighted with the tournament," said Aztec head basketball coach Tim Vezie. "This gives us a real showcase for our program, as well as getting two more home games each year against class opponents. We have three very good teams scheduled for the first year and things get better and better after that."

"With the success of the NCAA Tournament here last March, coupled with the success of the Aztecs, we feel this event will be a real plus for San Diego area sports," said tournament co-chairman Bob Fish.

Gil Crosthwaite of the sponsoring Junior Chamber was also pleased with the tournament. "This tournament will give San Diego and the Azetcs a lot of favorable publicity in the East, as well as bringing a lot of people out of the snow country and into our area in December. Granted there are a lot of holiday tournaments around the country, but not in an area like San Diego where we have so much to offer."

Griffs Meet Santa Ana In Aztec Bowl Saturday

Coach Dave Jordan's Grossmont College Griffins returns home Saturday at 7:30 to host Santa Ana College in a South Coast Conference football game in Aztec Bowl.

The Griffins will be seeking their first SCC victory against the Dons. Grossmont is 0-2 against conference clubs and 3-3 versus all comers. Santa Ana has a 1-1 SCC standing and an overall record of 2-3.

In last week's action, the Griffins found the confines of Anaheim Stadium to be unfriendly as Fullerton College handed Grossmont it worst defeat since the opening game of the 1972 season. The Hornets rolled to a 22-0 halftime lead, increased it to 36-0 in the third quarter and then settled on a 36-14 victory.

Long Beach equalled last Saturday's margin of defeat against the Griffins by blanking Grossmont, 22-0, in the 1972 opener.

For the first time in six 1975 starts, the Griffins lost the battle of the statistics as the Hornets held a 426-366 advantage in total yardage. The Griffins, did however, hold a 19-14 lead in first downs.

But, as the saying goes, statistics are for losers.

It wasn't until one minute remained in the third quarter that Grossmont finally got on the scoreboard. Freshman Pat Chevalier scored from one yard out.

The Griffins' final score came with 13:05 left in the game as quarterback Jim Browning passed 17 yards to wide receiver Don Kramer.

Squires, Rawls On Sails Program

The Virginia Squires and recording star Lou Rawls make up an entertainment doubleheader for the San Diego Sails Saturday night at the Sports Arena. The following night will be the Sails' first "Family Night" as the San Antonio Spurs make their 1975-76 debut at the Sports Arena.

The Squires, under head coach Al Bianchi, are fighting injury problems in the opening days of the 1975-76 season with all-star Mack Calvin and starting center Mike Green on the injured reserved list. Calvin suffered a torn knee tendon and Green a cartilage problem during the preseason schedule.

However, the Squires are optimistic that sharp-shooting Willie Wise will take up the slack, and Bianchi is already predicting that U. of Utah star Ticky Burden will give David Thompson a run for his money in "Rookie of the Year" voting.

Spurs' star James Silas leads San Antonio to town Sunday night. The Spurs have made relatively few personnel changes from the team that finished second to Denver in the West last season with a 51-33 record. The two notable changes are center Billy Paultz and forward Larry Kenon, both acquired over the summer from the New York Nets.

Recording star Lou Rawls will make up the second half of Saturday night's entertainment doubleheader at the San Diego Sports Arena. Lou will present a one-hour concert immediately following the Sails-Squires game. In addition, Lou will sing the National Anthem prior to the start of the game.

Sunday night will be the Sails' first "Family Night" of the season. That means five $5 tickets can be purchased for only $10, a savings of $15.

IVA Names Barry Frank Television Representative

LOS ANGELES — Trans World International's Barry Frank, the creator of "Superstars", the show that catapulted pro track Bob Seagren and IVA star Mary Jo Peppler to overnight fame, has been tabbed to handle the International Volleyball Assn.'s worldwide television representation. Frank also represents Wimbledon, World Championship Tennis and the US Auto Club. "Pro volleyball is spectacular and ratings for the '72 Olympics and NCAA championships were very encouraging. The IVA format provides total family entertainment that will have universal appeal," Frank said.

While much credit for the IVA's initial season success must go to entertainment industry executives like David Wolper and Berry Gordy, they have been complemented by several seasoned sports pros.

O'Hara's In

Mike O'Hara, president of the International Track Assn. firmly believes in the future of pro volleyball. O'Hara helped launch the ABA and WHA, and is an owner of the IVA Santa Barbara Spikers. "Our team played to near capacity at every home game," says O'Hara, "and we're encouraging UCSB to enlarge the facility. San Diego had crowds of 7,200 and 6,300. Our championship match outdrew the San Diego Padres on the same night by more than 1,000. The operating budget for our whole league is less than that of a single team in the WHA, NHL, NBA or ABA."

Wilt Owns Bangers

Wilt Chamberlain calls volleyball his favorite sport. "Volleyball is a tremendously exciting, crowd-pleasing sport," Wilt explained. "The IVA averaged close to 3,000 fans a game during the second half, and there were numerous crowds well over 5,000. The potential has barely been scratched."

Wilt acquired the Southern California Bangers late in the season and appeared in five IVA matches. His NBA record 100 point game was viewed by 4,124 fans and crowds during his years with the ABA's San Diego Q's were rarely that large.

Les Patrick, of the famed hockey clan, is another convert. Patrick operated basketball and hockey teams in Europe last year and is currently negotiating to acquire an IVA team for Las Vegas.

Seeks Las Vegas Franchise

"The international potential is enormous," Patrick said. "It's not unusual to have crowds of 20,000 at matches in other countries. IVA matches have outdrawn many pro basketball, soccer and even football and baseball games. Five of the 12 original WHA franchises didn't attract 5,000 fans to a game, and the NHL Seals almost never draw that many."

Wayne Vandenburg had considerable success in track and minor league baseball before forming the IVA El Paso Sol.

Padres A.I. League Team Looks Promising

With just under one month remaining, the San Diego Padres entry in the Arizona Instructional League is still setting the pace with a sparkling 22-10-1 record through Monday, Oct. 27.

The Padres, who have been leading from the first week of play, are on top thanks to fine all-round play as the club leads the loop in batting (.303), pitching (2.31) and fielding (.957). The batting figure represents a lead of 25 points over Los Angeles while the team ERA is a whopping 1.22 better than California in the runner-up positions.

Individually, infielder Mike Champion is pacing the league in hits (40), total bases (60) and doubles (8) while ranking second in batting with a hefty .388 mark, just one point behind the leader.

The Padres are also getting a lot out of outfielder Gene Richards who is number one in stolen bases with 10 and is third in batting with a .375 average.

Other Padres in the top 10 in hitting are Jim Wilhelm and Harold Drake who are tied for seventh at .338. Also over .300 are Tucker Ashford (.330) and Rick Sweet (.307).

As for the pitchers, Galen McSpadden leads in ERA with a great mark of 0.33 having yielded just one earned run in 27 innings of work. McSpadden has a record of 2-0 with a save. While on ERA's, Cliff Butcher (3-1, 1.17) is second, Roger Coe (3-1), 1.25) is fourth and Mike Dupree (0-1, 1.29) is fifth.

The Padres laos boast leaders in Vic Bornal (four saves) and Mike Lentz (28 strikeouts).

Toreros Host USIU For Homecoming Game

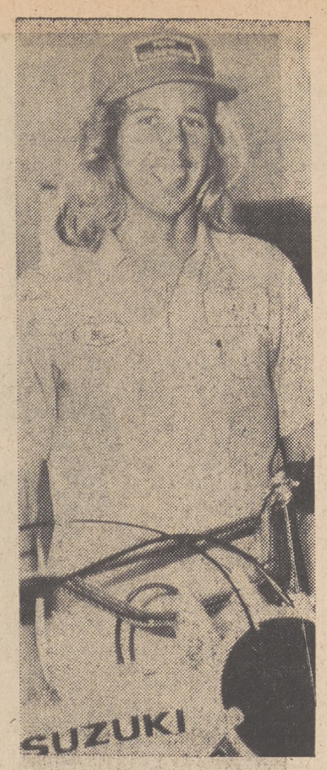
Kickoff is Saturday at 2 p.m. at USD Stadium (Linda Vista rd.)

USD comes into the game on a two-game shut-out streak —the second in Torero history that USD had consecutive shutouts.

The last one was in 1957.



CHAMP — Mike McGowen 18, a television cable installer who lives at 2131 Arbor ct., Spring Valley, was named amateur champion of the American Motorcycle Assn.'s motocross meet earlier this month at Baldwin, Kansas.
McGowen took two firsts and a third to capture the national 250 cc championship against 43 other contestants from all of the U.S. He was awarded a Can-Am motorcycle from the sponsor of the contest.
The motocross competition was conducted on an all-grass course of 1½ miles which McGowen says is similar in length to the motocross events at Carlsbad.
Of winning the championship in Kansas McGowen had an easy explanation—"nothing went wrong." He is noted locally as a "go for the jugular" racer who goes into the race to win and more often than not, does. He is a 1974 Mt. Miguel high school graduate and plans to turn pro next year, he says.

Road Projects Shelved By State $$ Cutback

A reduction in State revenues has forced the County Board of Supervisors to postpone $2,686,500 worth of new street improvements, new landscaping, new bike paths and related projects this year.

Rudy Massman, County Department of Transportation (DOT) Director, said the Board's action will reduce the County's road construction program for this fiscal year by 75 per cent.

The construction freeze is due to economic problems that have reduced the amount of State revenues coming into the County treasury, Massman said.

The shortage of funds is a result of less money than expected being carried forward this year, gas tax revenues being lower than anticipated, and other revenues being lower than anticipated.

Thirteen road related projects, miscellaneous landscaping, bike path proposals and an $80,000 County office building for DOT will be shelved this year as a result of the money shortage.

Maintenance Scheduled

Massman emphasized that maintenance of existing roads will have priority over all other projects and will not be affected by the Board's action.

The Board of Supervisors also approved imposing a moratorium on future Thoroughfare program funding which would stop financial aid to cities in their construction of major roads. The County will honor its commitments this fiscal year for the Thoroughfare program. In the past, the County has contributed one million dollars annually to this program.

No layoffs in the County's DOT are planned, but Massman said that 59 vacant positions will probably not be filled.

No Lemon Grove/Spring Valley projects are among those dropped.

Job for Judge To Open Soon

Judge Will L. Stalnaker will retire Dec. 1, from the Justice Court in the Ramona Judicial District and the County Board of Supervisors are scouting for a replacement.

Judge Stalnaker, 59, of Ramona, has presided over the Justice Court in the Ramona Judicial District for 10 years.

The Board of Supervisors will exercise its authority to appoint a replacement to that elective office for the unexpired portion of the term ending in January of 1977.

The Board is seeking applications from attorneys interested in filling the vacancy effective Dec. 1, 1975. The judicial position at the justice court level is a part-time job at the annual salary of $10,895.

Applications for the post may be obtained from the County Clerk's Office, 220 West Broadway, in San Diego and must be filed with that office before November 1. All applicants must be a resident of San Diego County.

The Board of Supervisors is planning to attach the three justice court territories to the jurisdiction of an appropriate municipal court district before January of 1977. This action will eliminate the justice court system in the County.

Judges of the justice court, if eligible, may succeed vacancies to the municipal court bench.

Manufacturers Fail To Support Ad Claims

The Advertising Substantiation Unit of the State Department of Consumer Affairs has recently uncovered a series of questionable advertising claims.

The department failed to receive substantiation from American Consumer's ad for a carving set made of vanadium molybdenum which was guaranteed to stay sharp forever.

Also in question is the book "A Doctor's Proven Home Cure for Arthritis." An ad claimed that the book had been proven as a cure for arthritis.

Another book, "Miracle of Psycho-Command Power," was advertised as making it possible to influence the minds of others and that the method in the book is effective in relieving arthritis, high blood pressure and migraine headaches. Research Industries Ltd. of New York has failed to back up the ad's claims.

Taxpayers' Group Asks Support For Schools in Tuesday's Vote

Tuesday is school election day in the Jamul Las Flores School District. The issue is school housing for the growing school population.

Polls will be open 7 a.m. to 8 p.m. and the polling places are at the Jamul school on Lyons Valley rd. and the Dulzura Community bldg. on Community Building rd.

The accompanying material was prepared by Janet Mulder, chairman of Taxpayers for Schools and offers the group's reasoning for supporting the issue which requires a two-thirds vote for passage.

By Janet Mulder

Jamul Las Flores is a rapidly growing school district having increased student enrollment 63 per cent over the last six years. All indications point to an even larger growth in the next five years. The school was built for 510 students and there are now over 600 with more on the way; probably 700 by the end of the year. All classrooms are now occupied and overflowing which forced the district into double sessions in order to fit all children in the number of available classrooms.

Users To Pay

School bonds are the least expensive way to finance school facilities. Working on a "Pay as You Use" basis, repayment of the bonds is spread over a 25 year period so that people whose children are using the facility in 1995 will be paying for it as we will be doing now. Much the same way we "Pay as You Use" by buying our homes.

The State Loan fund was designed for districts, like Jamul, that were growing very fast and therefore needed more facilities, but are at the maximum tax rate set by the State. This fund was authorized by the state legislators two years ago and many districts have used this money. If the voters do not authorize the application for this loan now by the passage of "Y & Z" the district is gambling that the funds will be there another year or, even more unlikely, more funds will be appropriated.

No Tax Increase

There will be no tax rate increase if these propositions are passed now because the district is at the maximum rate set by the state. However, this may well be the last chance to pass school bonds and state loans without an increase in the tax rate because, 1) there is no reason to believe bond interest will not increase in the future or, 2) that the state monies will be there in the coming years.

All alternative solutions to the over-crowding are only temporary ones or would mean a tax increase. Temporary solutions are 1) double sessions (in effect now but never a good solution, the only means available until adequate facilities are built) 2) year round schools — (not really feasible without a vote of the people because there would be no alterative school in the district — besides by next year it would be double sessions or year round schools) 3) portable classrooms — (high rental and set up fees must come out of general fund of district.)

Cutbacks

Monies would have to come from the music program (which encompasses 50 per cent of the students) and the transportation program (which encompasses over 90 per cent of the students) or an RBI (which unlike the bonds and loan only takes a majority vote and would increase the taxes about 50 cents per $100 assessed valuation.)

All of the above are deemed temporary and more costly and therefore unsatisfactory by this writer. It is important to remember a NO vote is a YES vote for double sessions and increased taxes. It takes a 2/3rds majority to pass the school bond and state loan issues and both must pass to utilize either one.

Complacency Feared

With only two measures on the ballot, complacency will be one of the opponents of passage of these propositions. We would, along with the League of Women Voters Recommendation, encourage the votes of Jamul Las Flores School District to vote yes so that the whole community can continue to benefit economically and socially from the school.

Election Wrap-Up

A public "election wrap-up" session is planned for Monday, 7:30 p.m. in the multi-youth room at Jamul School. Purpose of the meeting is to answer voters' questions about the school issue facing them Tuesday. Baby sitting service will be provided. The school is located on Lyons Valley road.

Sept. Tax Purse $1.27 Million in San Diego County

State Controller Kenneth Cory recently announced September disbursements of cigarette tax, highway users tax and "in-lieu" motor vehicle license fees. The county government received a total of $1.27 million from the latest disbursements.

San Diego County received $69,934 from the cigarette tax while El Cajon received $40,791 and La Mesa $24,913. $399,444 went to San Diego City.

Highway Users Tax, levied at gas pumps across the state, was disbursed in the following amounts: San Diego County, $955,395; La Mesa, $29,930; El Cajon, $41,153 and San Diego City $523,482.

"In lieu" motor vehicle fees were disbursed as follows: $243,780, County; $8,820, La Mesa; $12,172, El Cajon and $156,236 San Diego.

Other incorporated areas of the county also received shares of the tax revenue.

Mail Bag

The recent disclosure that the U.S. Postal Service has purchased a 3.4 acre site at the corner of Sweetwater Spring Blvd. and Austin Drive and plans to relocate the South Spring Valley Post Office to this new site poses more questions than answers. Although one can agree that the present site is inadequately located as to parking and access, and it does conflict with the projected route of State Highway 125, its general location is convenient as to population density in South Spring Valley.

Why then does the Postal Service choose to relocate this branch office to a relatively sparsely populated region that is already quite successfully served by the Casa De Oro Post Office? Of further concern to residents along Austin dr. and related intersecting streets is the projected plan of San Diego County to widen, curb, gutter, sidewalk and street light Austin dr. as a through street down into South Spring Valley.

Co-Incidental Agreement

How could it be that the interests of a land development corporation, the County of San Diego and the U.S. Postal Service coincide to such a degree?

I am amazed at such cooperation at the expense of the public interest. Over 180 residents in the area of Montemar, Austin, Lamar and Helix dr. have indicated by petition, a rejection of the County's projected realignment and widening of Austin dr.

Residents of South Spring Valley would not care to drive 5 or 6 miles to a branch post office when they have an existing facility much closer to their own homes. Would it not be more practical for the Postal Service to relocate the South Spring Valley branch office to a more accessible location in proximity to the existing Shopping Center and other commercial facilities that already exist in that area?

Youth Wins Award

The Heartland Chapter of the Retired Officers Assn. Medal for Academic Achievement was awarded to Mt. Miguel High school student Michael Lawson, son of USAF T/Sgt and Mrs. James V. Lawson of 1740 Dayton dr., Lemon Grove.

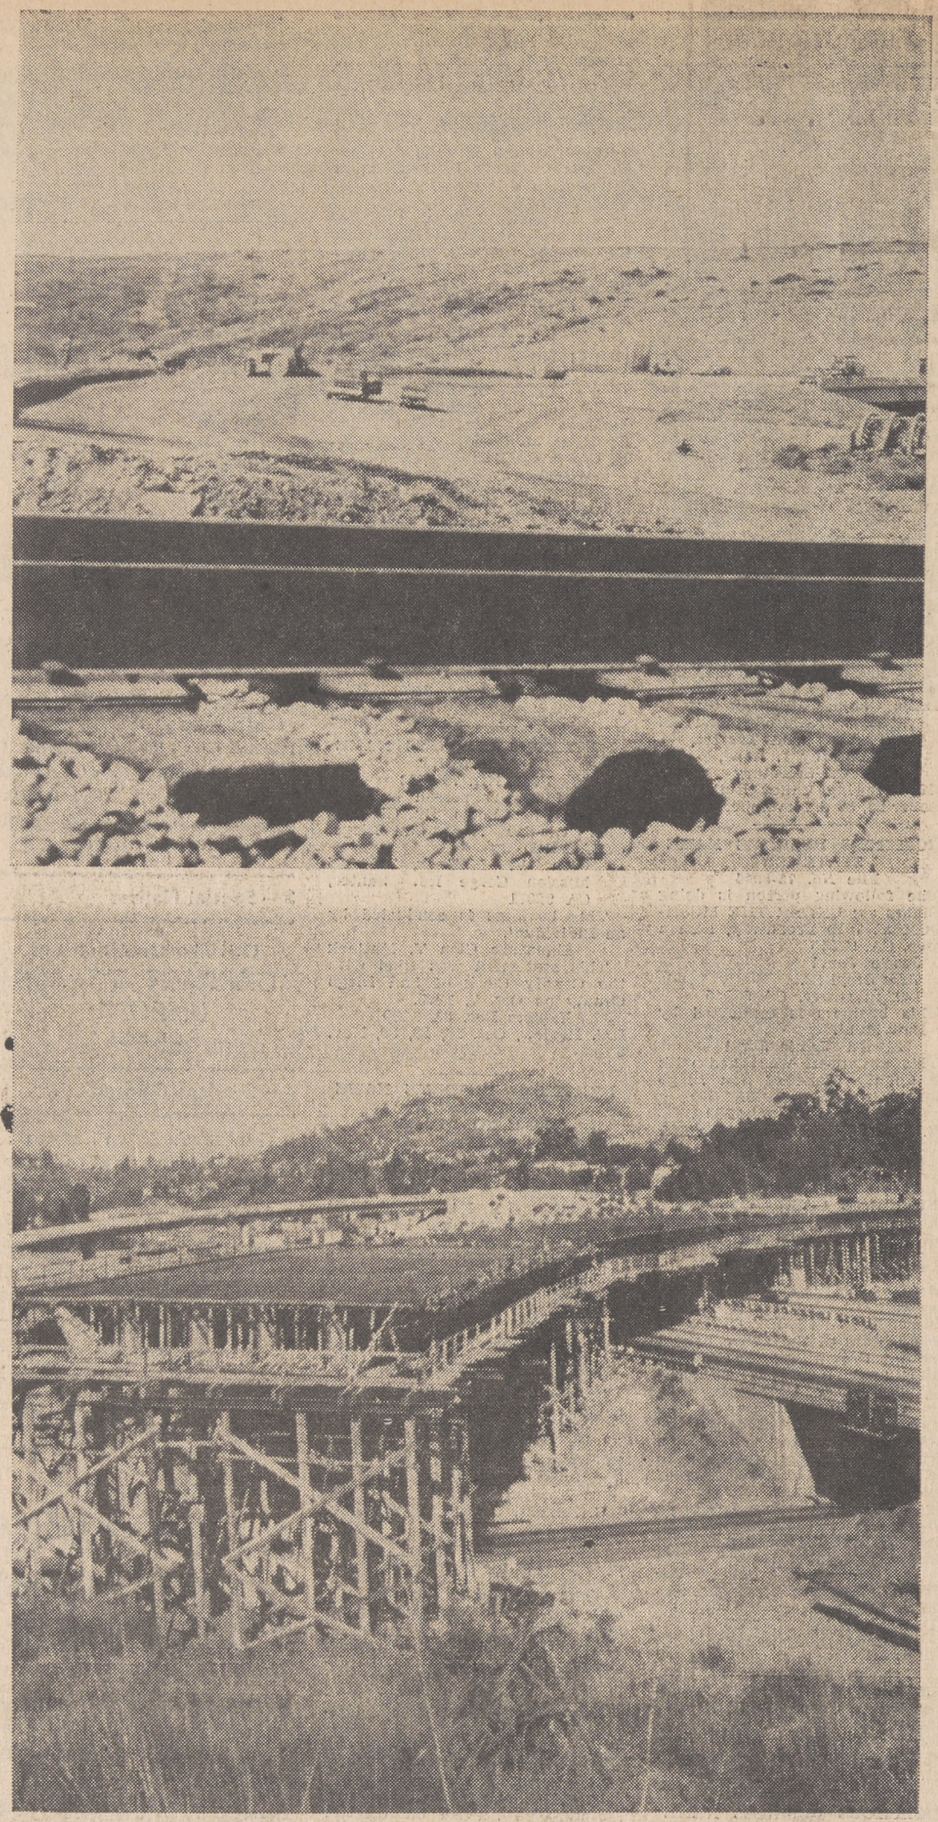
Also cited were two other students — one from Helix and the other from El Capitan.

ROA honors area first year Junior Reserve Officers Training Corps cadets, each year citing those who have achieved the highest academic standing at area high schools.

Chuggers Up Pace

Beer sales in California during the first nine months of 1975 were up slightly over their record-breaking pace of a year ago.

An estimated 11,750,000 barrels were consumed, compared to 11,566,000 in 1974, according to a spokesman for the U. S. Brewers Assn.



FREEWAY WORK CONTINUES — The new four-lane Lemon Grove avenue, destined to become the major accessway to Lemon Grove from Highway 94, approaches its Imperial ave. link up (above) near the SD&AE Railroad tracks.
On-site engineer Ralph Loveland says that within two weeks North ave. will be closed west of Imperial, and traffic diverted onto Main st. Lemon Grove ave. will cross the railroad tracks and empty onto Imperial where North ave. now intersects.
The Spring st.-Campo rd. interchange (lower) is progressing on schedule Loveland said. It is scheduled to open at the end of 1976.

ting owners to clean out the holes was a problem so he volunteered to bring a work party in on an upcoming Sunday, when traffic was light, and clean, spray and fill the holes.

He proposed they do each side of Broadway on alternate Sundays.

Arrow Electric is the firm who installed the street lights along Broadway. It also installed the complex traffic signal at Broadway and Imperial. The firm specializes in traffic signals.

Sarff said that Arrow Electric's policy is to participate in helping programs of the community.

A special meeting is set for today at noon for board members only. A vote will be taken on an insurance program previously presented to the board.

Successful Drive

In other Chamber news, the month-long membership drive ended this week on a successful note. Nine new businesses in Lemon Grove joined the Chamber in the last days of the campaign to bring the total number of new members to 89. Total Chamber membership now stands at a record 220 business and professional people.

As many as 20 more members, expected to mail membership payment, may further add to the Chamber roster, secretary Glenda Jackson said.

New members in the past week include: Lemon Grove Glass & Supply, 7457 Broadway; Sully-Jones Contractors, 7845 North ave.; Sentry Sheet Metal and Air Control Co., 7590 North ave.; Nick's Wheel & Brake, 7561 North ave.; Vern's Machine Shop, 7865 Lester ave.; Dr. Ray Mollenhauer, chiropractor, 7610 Pacific ave.; Universal Electric, 7614 Lemon ave.; Dell Oliver & Sons Plumbing, 6969 North ave. and Bob Bruss Photography, 7872 Broadway.

Shuffleboard Betting Brings Charge on 12

"Bets often run to $100," Sheriff's reports indicated a suspect said when 12 persons were charged with gambling at the Rodeo Room, 8300 Broadway, in Lemon Grove on October 24 at 9 p.m.

Undercover officers of the Sheriff's vice detail cited eight including the bar owners Doris and Ellis Samuel Deboe. Two men were jailed because they had no local address.

Officers reported they observed the persons exchanging money — $10 bills — following a shuffleboard game.

Fred John, 30, of Longview, Washington and Glen Elridge Davidson of Tulsa, Oklahoma are reported as saying $100 bets are not uncommon. Johns claims he had lost $100 in a game earlier.

Most of the other eight persons cited were from the surrounding area including Spring Valley and Lemon Grove. They will be arraigned in El Cajon Municipal Court.

Jewelry, Stereo Taken

Loot including stereo equipment, jewelry and a jewel box was taken from the home of ichard Wesley Marsh, of 3781 El Canto rd., Casa de Oro by burglars on October 20.

two cities. It is not likely that the county would again underwrite the expense of a new incorporation study and election.

Reorganization hearings is a brand new action so it is not known how much influence public appeal will have on the non-elected commission.

New levels of government have accepted public input in the past but at the "moment of truth" such entities have relied primarily on their own charts and studies.

Layoffs, Service Cuts Continue at SDG&E

Layoffs and curtailments of some services began last week at San Diego Gas & Electric in response to the Public Utility Commission's ruling on interim rate relief which left the utility $7 million short of what they asked.

Company President Walter Zitlau said that the cutbacks include dropping 300 employees from the payroll, a cutback in the company's construction program and a reduction in some services including prompt response to incoming telephone calls.

Layoffs took effect Friday and raised to 893 the number who have been terminated since the company began reducing manpower in February 1973.

In a move to reduce construction, the company slashed $26.8 million from its 1975 construction budget reducing it from $162.3 million to $135.5 million after earlier cuts of $30.8 million. The cutback, Zitlau said, will delay the construction and operation of a fifth generating unit at the Encina Power Plant.

Zitlau said that the construction delay will likely lead to blackouts in the winter of 1978 and '79 and will mean the consumption of 600,000 barrels more of fuel oil annually than would have been necessary with the use of the new unit.

The manpower cut is expected to reduce the company's ability to respond quickly to restore services in cases of electrical interruptions and will prolong the time required for new connections.

The company also plans to close some of its branch offices.

The PUC is expected to rule on the main rate request by March 1976. SDG&E filed for a nearly $120 million increase in April, in addition to $35 million in interim relief. PUC allowed only $27 million.

Former Agent To Expose CIA At USD Talk

A former CIA agent shares his controversial views and experiences with the Agency at a University of San Diego sponsored lecture held at the school's Camino Theatre at 8 p.m. tonight.

Victor Marchetti, author of "The CIA and the Cult of Intelligence," left his 14 year career in the CIA in 1969 because of disagreements with the agency's policies and practices. His book, an attempt to expose and promote public review of the CIA, was heavily censored by the CIA. A court order restored some, but not all of the deletions. Since 1972 he has been under court order not to publish any material — fact or fiction — unless it has received CIA approval.

Marchetti will discuss the CIA's activities including its propaganda, intelligence, espionage and paramilitary missions, as well as its role as an arm in foreign policy.

The lecture is open to the public at $2, general admission, and $1 students. Tickets are sold at the door.

Tire Firm Fraud May Top $10,000

H. R. Nease, district manager of Dorman's Tires, including the one at 6925 Federal blvd., Lemon Grove, told sheriff's deputies that the Lemon Grove store had been regularly ripped-off since the first of the year and named three persons suspected of being involved.

Sheriff's deputies investigating the loss noted that other Dorman stores were also suffering losses.

One of the persons involved in the investigation said a preliminary rundown indicated the loss would top $10,000.

Three New Bills To Aid Elderly

Three bills recently signed into law by Governor Brown are of major importance to the state's senior citizens, their families and those who provide health care and protection for the elderly, State Director on Aging Janet J. Levy said this week.

The bills are:

AB 1442 (Thurman) — Authorizing county health prevention health care projects for the elderly statewide, with the state to defray up to 50% of the cost of such projects. The legislation expands current law under which the Department of Health is authorized to establish such projects on a pilot basis. The new law carries a $750,000 appropriation;

SB 46 (Dills) — Eliminating present provisions that an adult child is required to contribute to the support of an aged recipient of aid under the State Supplementary Program. It provides instead that no relative is liable to contribute to the support of such program recipients; and

AB 193 (Keene) — Permitting pharmacists, as of next May 1, to substitute less expensive drug products for those prescribed by brand or trade name, with the pharmacist responsible for the substitution of products of the same active chemical ingredients of the same strength, quantity and dosage and of the same generic type.
